Is the report submitted and printed in the correct format? (e.g., COLOR)	5	5	
<i>Design 1</i>			
Aim	2	1.5	Aim is a bit difficult to understand
Image	1	1	
Visual design type	1	1	
Visual mappings	2	1.4	Where is the colour mapping?
Data preparation	1	1	
Limitations	2	1.4	Discussion is a bit basic
<i>Design 2</i>			
Aim	2	1	Aim is good, plot is similar to the last but the selection helps to differentiate it, I would also have made sure the axis were quantitative in order to make the plot smoother
Image	1	1	
Visual design type	1	1	
Visual mappings	2	1.4	Where is the colour mapping?
Data preparation	1	1	
Limitations	2	2	
<i>Design 3</i>			
Aim	2	0.5	Aim is quite basic, also mapping colour to one of the categories without adjusting data results in too many colours on screen
Image	1	0.5	Image is quite poor quality

	Points possible	Points earned	Comments
Visual design type	1	0	Type is a dot distribution map
Visual mappings	2	1.4	Where is the colour mapping?
Data preparation	1	0	
Limitations	2	1	Really should have mentioned the visual clutter of the plot here
<i>Design 4</i>			
Aim	2	1	The map vis alone doesn't really satisfy the aim as it is hard to see the exact number of features on each map, pairing them with a bar chart to count the number could have helped
Image	1	1	
Visual design type	1	0	
Visual mappings	2	1.4	
Data preparation	1	1	
Limitations	2	1.4	Discussion is quite basic
<i>Design 5</i>			
Aim	2	2	
Image	1	1	
Visual design type	1	0	Not a stacked bar chart, this is more of a matrix plot
Visual mappings	2	1.4	Why is colour mapped to title?
Data preparation	1	0.5	Very basic description
Limitations	2	0
